

Memory Lane

McFly

Two years away, I got back today
Tried calling up this girl I used to know
But when I said hello, she didn't know
Just who the hell I was supposed to be
Memory lane, we're here again, back to the days
And I'll remember you always
So much has changed
Now it feels like yesterday I went away
Threw words around, that she moved town
About a thousand miles away from here
And I found something she wrote a long time ago
And it reminds me of a place I know called
Memory lane, we're here again, back to the days
And I'll remember you always
So much has changed
Now it feels like yesterday I went away
So much has changed
(So much has changed)
So much has changed
(So much has changed)
So much has changed
(So much has changed)
Down memory lane, we're here again, back to the days
I'll remember you always
So much has changed
Now it feels like yesterday I went away
So much has changed
(So much has changed)
So much has changed
(So much has changed)
So much has changed
(So much has changed)
Down memory lane
So much has changed
(So much has changed)
So much has changed
(So much has changed)
So much has changed
(So much has changed)
Down memory lane, yeah, yeah
So much has changed
So much has changed
So much has changed
