Thundering Hearts

John Mellencamp

In these long, hot summer days
Need a way to cool ourselves down
Pop off the top of that Chevrolet
Drive through the car wash laugh and fall aroundSmokin' the old Ducados the old man got down in Spain
Eating eggs and French fries on the side
Ride that Harley Davidson in the hot summer heat
Lord knows that I just love to rideGo by and pick up that Kentucky girl
She knew me when I got my start
Oh yeah, those were different daysIn the valley of the thundering hearts
Thundering hearts, thundering hearts
Thundering heartsGet your crazy hair girl, right on my face
This old rednecks on fire burning up
Give us a kiss, baby, make it on the same place
Humiditys about to drive me all crazy wildPretty soon the sun will be going down
And this little town will be cool and dark
Forget about heaven, let me stay here foreverIn the valley of the thundering hearts
Thundering hearts, thundering hearts
Thundering hearts, yeahThundering hearts, thundering hearts
Thundering hearts, thundering heartsThundering hearts, thundering hearts
Thundering hearts, thundering hearts
Thundering hearts
