

My Sweet One

Phish

my sweet one i call you my sweet one
your my only true sweet one
with my all i call you my sweet one
from far away i say your name
oh with you i'll travel thick
oh with you i'd also travel thin
and all the spaces in between
i'll travel with your my sweet one

but for now i must sit here and ponder the yonder

the herbavoures eat well 'cause their didn't ever run

my sweet one i call you my sweet one
your my only true sweet one
with all i call you my sweet one
from far way i say your name

if you're ever dissatisfied with the way life's treating you
you know you can count on me to take good care of you
oh honey i love you yes i do you know that's true of course
and if your dog or cat ever dies i'll by you or you or you
