This Life Is Killing Me

[Velvet Crush](#)

I believe, I believe
That my life is running out on me
And I believe there's a light that I can't see
It's your saving grace but it's not saving meTo live for and hope forI believe that this life is killing me
That it brings me down to drown in misery
You don't think that I will sink but you can't see
That the blues and grays are pouring down on meTo live for and hope for, please pray forI believe, shut my mouth before I scream
I can't go out, the sky is closing out on me
I believe that I'm scared of what I see
It isn't right the way this life is killing meTo live for and hope for, please pray for
