

# Midnight Sun

## Neon Hitch

Advisory - the following lyrics contain explicit language:

Verse 1:

It's always one night, one night, with you

Room 301 in my dressing gown

Bottle of red wine, red wine, for two

When the sun comes up then I come downHe wanna fuck me like a rock-star

The Beatles said "All you need is love"

But I feel empty as this mini-bar

And in the morning I'm hungover youChorus:

You never say that you love me, no

You always turn over when we're done, yeah

Why won't you say that you love me, no

Two bodies under the midnight sun, yeah(I just wanna be loved by you)

(I just wanna be loved by you)Verse 2:

I left my diamond, gold ring, on the table

But you saw right through me and said "I don't"

That's when I asked and you told me, no labels

So why do I come back, when I promise I won'tHe wanna fuck me like a rock-star

The Beatles said "All you need is love"

But I feel empty as this mini-bar

And in the morning I'm hungover youChorus:

You never say that you love me, no

You always turn over when we're done, yeah

Why won't you say that you love me, no

Two bodies under the midnight sun
