

Breathe

Jessie J

[Verse 1]

Everything outside is grey and lonely

Spark electricity in our city yeah

Let's light it up

Falling under pressure I can feel the butterflies

Oh you blow smoke inside my mouth

You light me up[Pre 1]

I can be your work of art for life

You just show me what you want tonight[Chorus 1]

So together we can breathe

I wanna give you all of me

Open up your eyes and love me love me love me When I'm falling to my knees

I wanna give you all of me

You know how to take care of me of me of me

Together we can breathe

Oh oh oh

Oh oh oh

Love me love me

Together we can breathe

Oh oh oh

Oh oh oh

Love me love me[Verse 2]

Addicted to the colours that you're using on me

Clouds above my head are beautiful and red

Blow it up

It's crystal clear with you nothing's a blur

Just inhale me into your world

And blow it up[Pre 2]

I can be your work of art for life

You just show me what you want for life[Chorus 2]

So together we can breathe

I wanna give you all of me

Open up your eyes and love me love me love me

When I'm falling to my knees

I wanna give you all of me

You know how to take care of me of me of me

Together we can breathe

Oh oh oh

Oh oh oh

Love me love me
Together we can breathe
Oh oh oh
Oh oh oh
Love me love me
Together we can breathe[Bridge 1]
In and out it's all i need
To taste the sweet
To feel complete woah
In and out it's all i need
To breathe to breathe
We can breathe[Chorus 3]
I wanna give you all of me
Open up your eyes and love me love me love me When I'm falling to my knees
I wanna give you all of me
You know how to take care of me of me of me
So together we can breathe
Oh oh oh
Oh oh oh
You love me love me
So together we can breathe
Oh oh oh
Oh oh oh
You love me love me
So together we can breathe
