It's Me I'm Worried About

Joe Nichols

She's not that good a driver
And it's not that good a car
There's rain on that horizon
She's never gone that far
No storm is gonna stop her
Not a little thing like that
I gotta sit here all night knowin'
That she ain't comin' back
She's gonna make it
She'll be alright
Out on her own, I have no doubt
It's me that I'm worried about
She's never been to Dallas
That's a big ol' town
It ain't exactly easy
To find your way around
She's never met a stranger
She makes friends right and left
This house is so empty
I'm here all by myself
She's gonna make it
She'll be alright
Out on her own, I have no doubt
It's me that I'm worried about
She don't look back where she's been
She just lives in the moment, yeah
That she's gonna make it
She'll be alright
Out on her own, I have no doubt
It's me that I'm worried about
