Another Spring

Blue Sky Riders

The signs of life are everywhere
A hope for feeling in the air
Winters gone we're almost there
We're almost thereI love to see the roses bloom
The first thing have to struggle through
Stoney ground but they always do
They always doLike my heart
They'll soon be opening
But it's probably gonna take
Another springAnd it's alright
Everything in its own time
It's alright
Even this old broken heart of mine
Will find a way
It will be ok
But it's probably gonna take
Another springYou came till late
The wind to make
Though it's gettin' warmer everyday
We burn the trust
It's on it`s way
It's on it`s wayI should be far
But than I am
I should be there
But then again
I'm just doing the best I can
The best I can
I wanna see those roses more than anything
But I guess it's gonna take
Another springAnd it's alright
Everything in it`s own time
It's alright
Even this old broken heart of mine
Will find a way
It will be ok
But it's probably gonna take
Another springAnd it's alright
Everything in it`s own time
It's alright

Even this old broken heart of mine
Will find a way
It will be ok
But it's probably gonna take
Another springYeah
I guess it's gonna take
Another spring
