

Make My Day (feat. Sean Levert & Joe Little III)

Gerald Levert

Huh, it's gonna be one of them days
I can feel it, uh On a day like today
I got out of bed, upped and went my way
Tryin' to find some peace of thing
But here ain't no rest for, oh, every man Everything seemed to get me down
Looking everywhere just to find a smile
Then the phone rings and an angel sings
Hello And it's funny you should call today
It's been too long, thought you just moved on
And it's funny you should call today
You always found a way to make my day Girl, tell me how is your family
I can't believe that you thought of me, baby
Baby, my heart is beating fast
You don't know how much I missed our past, mmm, yeah Seen a friend of mine a month or so
She said you're doin' well, you've got it goin' on
Then the phone rings and an angel sings
Hello And it's funny you should call today
It's been too long, thought you just moved on
And it's funny you should call today You always found a way to make my day Baby, yeah
Like , out
And I just want to, wanna thank you, girl
Just to hear your face, girl, it changed my world And it's funny you should call today
Oh, it's been too long, thought you just moved on
And it's funny you should call today
You always found a way to make my day Ain't it funny you should call today
I think about you often, baby, yeah, yeah
And it's funny you should call today
We can just be friends, babe, ain't got to be your
Man, no way, no way Said it's funny, funny you should call me
'Cause I've been thinkin' 'bout you, babe, I've been
Thinkin' 'bout you, I've been thinkin' about you, baby
Ain't it funny, ha-ha, you should call today
Ah-ha-ha-ha-ha, funny you should call, funny you
Should call Said call me, oh, baby, now, call me
Seems like you know when things are goin' wrong
