

# Can't Stand Still

## Twisted Sister

Well, I remember the day that it ended, it was a scene that I never intended  
My heart just hasn't been mended from that day on  
You looked at me so sadly, you said I treated you badly  
You said you want something madly, but now it's gone Well baby, when, when, when I was in a rock 'n' roll  
band and I was playin' a one night stand  
And I said I wanna be your man and it was fine  
The situation is jaded and it's a crime But T said that we hadn't made it, although so invaded  
Well, I just can't stand still for a minute, I gotta move  
And don't you know that I just can't stand still for a minute, too many memories ended  
Well, I just can't stand still for a minute, I gotta move, oh oh, go Eddie, go  
Well, I just can't stand still for a minute, too many memories ended  
[Solo - Eddie] Well, I just can't stand still for a minute, I got to move  
Well, I just can't stand still for a minute, I gotta move  
Well, you know that I just can't stand still for a minute, baby, too many memories ended Well, I just can't stand  
still for a minute, oh no no, too many memories ended  
Well, I always been a long gone ember for my love that I always remember  
Because I know deep down in my soul, it's a feelin' that I'll never control  
You know it ended up bleed out December, I never forget, no I never forget I'll just keep playin' my rock 'n' roll  
and I'll make it there  
Well, I just can't stand still for a minute, I got to move  
Well, you know that I just can't stand still for a minute, too many memories ended  
Well, I just can't stand still for a minute, baby, too many memories ended  
Oh, I just can't stand still for a minute, I got to move  
Oh, I just can't stand still for a minute, I got to move  
Baby, well, why you treat me so bad, I can't stand it anymore  
Well, I just can't stand still for a minute  
Pack all my bags and get the hell outta town, yeah
