

# Breathe

## Dexter Freebish

I wake up everyday scared about tomorrow  
I just don't know what to believe, no  
And are we running out of all this time we borrowed  
I'm drowning in reality Breathe, we've gotta let it go  
Turn around and just breathe  
Tomorrow will come, can we  
Breathe The days I saw when I was young are unfamiliar  
When were we taught to live this way  
And as the years go by is our future clearer  
Or will it all just fade away Breathe, we've gotta let it go  
Turn around and just breathe  
Tomorrow will come, can we  
Breathe I'm just a stranger trying to  
Make my way through life but I'm confused  
I'm sick of all the talking heads that lie to me  
I want the truth, I want the truth Am I breaking through the walls  
That stand between us? Breathe, we've gotta let it go  
Turn around and just breathe  
Tomorrow will come  
And still all I want is to breathe We've gotta let it go  
Tomorrow will come  
I've got to breathe  
Tomorrow will come  
Tomorrow will come
