

Goodbye Hooray

Red Hot Chili Peppers

Junior paints that old cafe
he's gotta chase those girls around
westbound drunk with lots to say
but he never makes a sound

Hustlers get what they deserve
but it's always half the date
good things come to those who wait
like an expiration date

See you around
I'll see you around
I'll play all night
hey don't get uptight
I lead all your mind games astray
Well I'll see you around
I'll see you around
I'll play all night
hey don't get uptight
see you, so long
goodbye, hooray

Curb your tongue oh scallywag
because you got no flag to wave
save your breath for the black and white
every dog will have it's day

See you around
I'll see you around
I'll play all night
hey don't get uptight
I lead all your mind games astray
well I'll see you around
I'll see you around,
I'll play all night
hey don't get uptight
see you, so long,
goodbye, hooray

Well I'll see you around

I'll see you around

I'll see you around

I'll see you around

I'll play all night

hey don't get uptight

I lead all your mind games astray

well I'll see you around

I'll see you around

I'll play all night

hey don't get uptight

see you, so long

goodbye, hooray

Well I'll see you around

I'll see you around

I'll see you around

I'll see you around

I'll see you around

goodbye and hooray

Well I'll see you around

I'll see you around
