Inner Conflict

Spawn of Possession

Nothing can stop the pain and nothing can stop the pain suffering from anxiety it seems like an eternity Somebody somebody kill me somebody put my out of my misery **Inner Conflict Inner Conflict** The pain it only gets worse and the pain it only get worse give up 'cause there is no hope life is hell when you can't cope Large two inch maggots decorate my vomit infecting eyes oozing pus acknowledge the stench of human excrement swamps of mucus prevalent every hole in my body drips blood every hole in my body drips blood every hole in my body drips blood Hate is fear I rip at my face in the mirror death approaching expiration growing nearer I'm rotting inside I'm disgusted with myself I'm in hell
