

# Circles

## I See MONSTAS

Everyone in life  
Has their shares of ups and downs  
Outside beneath the neverending sky  
Is a world that only goes one way  
And that's round and round  
If we have one night to live  
One chance to make a mess  
How much would you give  
To start it all again?  
A life's beginning  
As another is ending  
It's the joy and it's the pain  
Of a life worth living

Earth moves in circles  
Keeps turning around  
What falls down  
Gets right back up  
Back up, yeah  
Keep moving in circles  
Turning all around  
You'll be lifted back up  
Back up  
In circles  
In circles

Earth moves in circles  
Keeps turning around  
What falls down  
Gets right back up  
Back up, yeah  
Keep moving in circles  
Turning all around  
You'll be lifted back up  
Back up  
In circles  
In circles  
In circles

Every time you're feeling down, it's alright  
Everything's moving around us tonight  
Every time you're feeling down, it's alright  
Everything's moving around us tonight  
Don't you worry now

Every time you're feeling down, it's alright  
Everything's moving around us tonight  
Don't you worry now  
Don't you worry now

Every time you're feeling down, it's alright  
Everything's moving around us tonight  
It's a world that only goes one way  
And that's round and round  
In circles

Earth moves in circles  
Keeps turning around  
What falls down  
Gets right back up  
Back up  
In circle

You'll be lifted back up  
Back up  
In circles
