Let Me In

Glen Hansard

Let me in
Theres darkness all around us and the night is drawing closer, closing in
Let me in
Those words you said were useless
We better dress ourselves up faster with thicker skinAnd if you run
Don't run too far
And if you're gone
Let me know so i can fall apart
This gulf is deep and widening
And this hearts full of nevermore
Theres so many frightening things
That keep adding upLet me in
The sign we passed an hour ago I swear I see it coming up again
Let me in
We lost our bearings back a way and uncertainty just waiting at the bendIf you run
Don't run too far
And if you're gone
Let me know so i can fall apartThis gulf is deep and widening
And this hearts full of nevermore
Theres so many frightening things
That keep adding up
Will you rise early with the dawning
Will you stay beside me through the day
Will you come, come when I call you
Will you push the downs and dark away
Will you lie, lie with me easy
Will you see the good in me always
Will you dance, dance when I play for you
Will you see the good in me always(come rising up)
(come rising up)
(come rising up)
