

Where Have You Gone

Carousel

If I told you that I miss the time when you were right by my side
Would you say that you forget or was it the time of your life
These days seem long where have you gone I've been thinking bout the time when we would stay up till the
sunrise
If I said I want you back would you meet me with the same eyes
These days seem long where have you gone On my way, I'll get you started
I'll catch you I know your falling
O hey since we parted, we can't stay broken hearted So your often on your own, you didn't call do you wonder.
Am I the only one alone can you bring me back the Summer
These days seem long where have you gone On my way I'll get you started
I'll catch you I know your falling
O ey since we parted, we can't stay broken hearted On my way I'll get you started
I'll catch you I know your falling
O ey since we parted, we can't stay broken hearted On my way I'll get you started
I'll catch you I know your falling
O ey since we parted, we can't stay broken hearted
