Intelligentactile 101

Jesca Hoop

Can I borrow your bones and marrow till I get my own
Lovely, lovely, lovely bones till I get my own
I won't tell my new friends that they're on loan, they won't know
It's no smart thing to do when you're far from homeCan I borrow your skin blushin' to get lucky in
Lucky, lucky, lucky, lucky with a special friend
Well, I hear that on Planet Earth that it's a sin, big sin
We'll all the more fun for me to get lucky thenOh, I'm gonna be a baby girl
A round trip ticket to a blue planet
Flip-euey at Mars
Oh, I'm gonna swim in the water first
Blowin' up her belly though she didn't plan it
I took the invitation when she rocked the hammockPullin' all the wild cards
And now I'm swingin' from the stars
From an umbilical cord from an umbilical cord
From an umbilical cord feels like I've been here beforeOn my tongue, on my tongue
I want your fingers on my tongue
I want some intelligent tactile
When foreign play things come
I'm gonna study 'em with my tongue
I want some intelligentactile 101Can I borrow your hips and your lips
And your wink and curl
Is I is or is I ain't one flossy girl
I'm gonna paint that planet red
'Cause I'm in the world, in the world
And leave a trail of kisses when my loves unfurledWill you steady my ground
Dizzy ground, when I'm turned around
Dizzy, dizzy, dizzy ground when I'm lost you'll found
Well, I'm headed to Planet Earth to search the sound, deep sound
So keep my compass wound when I'm on the groundOh, I'm gonna be a baby girl
A round trip ticket to a blue planet
Flip-euey at Mars
Oh, I'm gonna swim in the water first
Blowin' up her belly though she didn't plan it
I took the invitation when she rocked the hammockPullin' all the wild cards
And now I'm swingin' from the stars
From an umbilical cord from an umbilical cord
From an umbilical cord, feels like I've been here beforeOn my tongue, on my tongue
I want your fingers on my tongue
I want some intelligent tactile

When foreign play things come
I'm gonna study 'em with my tongue
I want some intelligent tactileOn my tongue, on my tongue
I want your fingers on my tongue
I want some intelligent tactile
When foreign play things come
I'm gonna study 'em with my tongue
I want some intelligentactile 101
