New York native on his grind, Manolo Rose, is prepping a follow up to last year's album Concrete Rose. He'll be hitting fans with another project this summer, and keeping the Rose theme alive, it's titled Soul of a Rose. As he gears up for that, he's letting us premiere a new leak off the mixtape today that makes an ATL connection with K Camp. The record has some jingly production with moments of cowbell thanks to his frequent collaborator Reazy Renegade, while Manolo offers up a catchy hook. Manolo has more leaks on the way, so stay tuned. If you missed "God Level" from a few weeks back, check it out. Quotable Lyrics
