

Skipping

Eagulls

It's not like the middle swept
Does existence have some more than this?
See life like a broken record playin'
Another scratch in the liberty's course, this pain
All I've ever wanted was an answer I might be victim in the nightman's hands
You felt so guilty, you should settle off my head
'Cause all I've ever wanted was an answer Another scratch in the middle slips
Was life like a record skim
Don't know much more, how much longer I can play?
'Cause all I've ever wanted was an answer from this So, I'm the victim of monotony?
So, I should be rewarded with answers from you
Seems life's like a broken record playin'
All I've ever wanted was an answer some day
Seems life's like a broken record playin'
All I've ever wanted was an answer some day
Seems life's like a broken record playin'
All I've ever wanted was an answer,
But all I've ever got was a broken record skipping
