

Ms. & Mr. Little Ones

[Stevie Wonder](#)

What is that that you're looking through a pornographic magazine? When I bet you don't even know how to spell the word And you say you don't leave home unless you're strapped When you've just barely come into this world With your uzi sub machine Reflect what they hear and see Well, if a child's ways and actions Guess the only ones to blame are you and me Ms. & Mr. Little Ones Ms. & Mr. Little Ones Look what's happened to our world We're so sorry The only chance for a better one Is up to you and he Please! Forgive us for what we've done Ms. & Mr. Little Ones What kind of name is that you're calling her I've heard that word before daughter a name so low But I don't think any parent would give their You say you're carrying to get high And about this extra paraphernalia That won't take you anywhere you want to go Well, you don't have to listen Cause it's here for you to see So many burnt out lives trapped in their misery Look what's happened to our world Ms. & Mr. Little Ones We're so sorry Ms. & Mr. Little Ones Please! Forgive us for what we've done Is up to you and he The only chance for a better one Ms. & Mr. Little Ones Oh, I could rattle on about the good old days And even inwardly relive them vividly And how life used to be But the best advice I can give to you Treat each day like this is it Is that we only go around one time And give it the best you can Ms. & Mr. Little Ones Ms. & Mr. Little Ones Look what's happened to our world The only chance for a better one We're so sorry Is up to you and he Please! Forgive us for what we've done Ms. & Mr. Little Ones Ms. & Mr. Little Ones Look what's happened to our world Ms. & Mr. Little Ones We're so sorry There's so much we should and should have never done Please! Forgive us for what we've done That's why we're beggin' on our knees Ms. & Mr. Little Ones Ms. & Mr. Little Ones
