No Turning Back

Kevin Borich Express

Uh, uh, uh, uh, uh
(Uh-huh yeah)
Uh, uh, uh, uh, uh
(Uh-huh yeah)
Come on, uh
Saying uh, uh, uh, uh
(Uh-huh yeah)
Come on, come on
Saying what? What? What?
(Yeah, yeah, yeah, yeah, yeah)
You can search around the world
For different people for a thing called love
And you'll return with stories on how the perceive you
It just wasn't love
Your friends will say how they often see it
(But what?)
They ain't talking 'bout love
They ain't talking 'bout love baby
(Sing it baby)
Just go inside and figure the many that don't believe it
Cause it just ain't love
Love, love, love, love
Love, love, love
When in love with someone
When he leaves you can still feel it
Since you feel they're the one
Just close your eyes and you can still see it
If it's bright as the sun
There's no turning back
(Yeah second verse, what? What? What?)
I don't need your lavish lifestyle to please me
(Why?)
Cause it just ain't love
If you notice kings and queens divorce so easy
(Hm-hm)
Cause it just ain't love
(Sing it baby, sing, sing it baby)
The world could change if starving mouths were eating
But there is no love

(Uh, that's so true, what?)
When your heart is starving now's the time to feed it
Enriched with love when you love someone

(Come on, come on)
When in love with someone
When he leaves you can still feel it
Since you feel they're the one
Just close your eyes and you can still see it
If it's bright as the sun
There's no turning back
(again, again)
When in love with someone
When he leaves you can still feel it
Since you feel they're the one
Just close your eyes and you can still see it
If it's bright as the sun
There's no turning back
You can't deny
You can't deny
When you're open wide
And what you're feeling inside
Is an all time high
When in love with someone
When he leaves you can still feel it
Since you feel they're the one
Just close your eyes and you can still see it
If it's bright as the sun
There's no turning back
(Come on, uh, uh, uh)
(You can't deny)
You can't deny
(When you're open wide)
When you're open wide
(What you're feeling inside)
And what you're feeling inside
(Is an all time high
) Is an all time high
When in love with someone
When he leaves you can still feel it
Since you feel they're the one
Just close your eyes and you can still see it
If it's bright as the sun
There's no turning back
