

Be Together (Daktyl Remix) [Preview]

Major Lazer

Let me escape in your arms
Baby I'm yours, baby I'm yours
Love don't come easy at all
I miss you so much, I miss you so much Tell me is this freedom, baby?
Chasing after danger, making my heart beat, woah
Maybe if the stars align, maybe if our world's collide
Maybe on the dark side we can be together, be together
Maybe in a million miles, on the highway through the skies
Someday soon we'll be together He was a dreamer at heart
Chasing the stars, chasing the stars
Rain spread to the sun
I miss you so much, I miss you so much Tell me is this freedom, baby?
Chasing after danger, making my heart beat, woah
Maybe if the stars align, maybe if our world's collide
Maybe on the dark side we can be together, be together
Maybe in a million miles, on the highway through the skies
Someday soon we'll be together We'll be together, we'll be together
We'll be together, we'll be together
We'll be together, we'll be together
We'll be together, we'll be together Maybe if the stars align, maybe if our world's collide
Maybe on the dark side we can be together, be together
Maybe in a million miles, on the highway through the skies
Someday soon we'll be together Maybe if the stars align, maybe if our world's collide
Maybe on the dark side we can be together, be together
Maybe in a million miles, on the highway through the skies
Someday soon we'll be together
