

I Am

Michael Tolcher

[Intro]

Alright, this one's called "I Am" ...[Verse 1]

Whatcha doing?

Not nothing, workin' on a theory

Putting words to my thoughts

I hope you hear me

Give it a minute

Let it come inside

If it hurts I can make it work

I know I'm qualified[Chorus]

One of these days

I'll catch up to my predictions

One of these days

I'll be more than just man

One of these days

I'll be stronger than addictions

I am, really, sometimes, I am[Verse 2]

You said something so good

Is worth the wait

Well, I said it better be tonight

Because tomorrow's too late

Think about the night we could have

The things we could do

Forget about the love that's lost, it's old

But, this one's new[Chorus]

One of these days

I'll catch up to my predictions

One of these days

I'll be more than just man

One of these days

I'll be stronger than addictions

I am, really, sometimes

I am, really, sometimes, I am

There's a side of me

Well, I am

That I want you to see

I am, really, sometimes, I amI promise I am[Verse 3]

Whatcha doing?

Just this, working on a theory

I'm putting love in my words
Now can you hear me?
Give it a minute
Let it come inside
And if it hurts
We can make it work
I know we're qualified[Chorus]
One of these days
I'll catch up to my predictions
One of these days
I'll be more than just man
One of these days
I'll be stronger than addictions
I am, really, sometimes
I am, really, sometimes
I am, really, sometimes
I amI promise I am
