

Can't We Try

Toni Gonzaga

I.

things are fine but in my night i miss the one with whom i share my thought and dreams alone I'm finding out
its hard to be without you here with me its makes me crazy.

II.

days had passed and so the nights gets colder all the more i grow to miss you stronger no i never been in love
and hurt like this before but let me ask you one thing

chorus:

can't we try to make up for the bad times baby can't we try to bring up all the loving that its still inside, I'm sure
that's right this could be forever lets give it one more try

III

days had passed and so the night gets colder all the more i grow to miss you stronger no i never been in love and
hurt like this before but let me ask you one thing

chorus:

can't we try to make up for the bad times baby can't we try to bring up all the loving that its still inside I'm sure
that's right this could be forever lets give it one more try

Bridge:

you see their can't be somebody else between us seldom do some people find the love of chance like ours i think
we take it then we make it through

Chorus:

can't we try to make up for the bad times baby can't we try to bring up all the loving that its still inside I'm sure
that's right this could be forever lets give our love just one more try

hmmm...this could be forever lets give it one more try
