dont force my feet in these i know just what my feet need and sneakers are right for me! give me back my beet
up dirtied up used up worn out {clap clap} sneakers of old the ones that look like they have really had it but like
tiny pillows to my {clap clap} feet into mold give 'em new faces by replacin there laces and we'll throw 'em in
the washer an the'll look like new give my feet a break for every step that i take but don't give me new shoes!
