

When You Cry

Faith Hill

Baby, Ill be there to lift you up
Ill dry your eyes, oh, when you cry
When youre alone and nobodys there
To take you through the night Oh, when nothings right
Call out my name
Oh, dont be ashamed to say you need a hand
I understand, baby Sometimes the night can be so dark and cold
No one beside you
And no one to hold
Hold on, hold on When you cry, I will dry your eyes
When you fall, Ill lift you up high
You just reach for these arms of mine
I promise they wont let you go
And Ill make you smile, when you cry Youre always strong
Always got a hand
To lend to someone else
Dont need no one else What about those times
When that heart inside
Is crying out for love
For someone, baby Someone to lean on
When the tears start to fall
Lean on me, Ill see you through it all
Just hold on, hold on When you cry, I will dry your eyes
When you fall, Ill lift you up high
You just reach for these arms of mine
I promise they wont let you go
And Ill make you smile, when you cry Hold on to me
When youre not feeling strong
Hold on, baby, hold on When you cry, I will dry your eyes
When you fall, Ill lift you up high
You just reach for these arms of mine, baby
I promise they wont let you go, when you cry When you cry
When you cry
Oh, baby
Yeah
