Damn Thing Called Love

After 7

I've been down and out but never this low before
And sometimes felt left out but never outside your door
We've been far apart but never this far, oh girl
I can't bridge the distance, baby, anymoreIf you love me then just show me
But if you don't, then go on baby
With yourself and do what you wanna do with your life
And leave me alone'Cause I'm cryin' for your lovin'
And I'm hopin' that this feelin' will die
But if it don't then girl, you've ruined my world
For the last timeI've got this damn thing called love
I've got it for ya but it just ain't enough
So I just watch my heart break
With every chance I take with you, with youI'm out of my mind for love
Givin' you all just ain't enough
What am I supposed to do
To get with you, baby, lady, hey?Yes, other girls have been good to me
But they never did the things you did for love
I guess you must have had to love me a lot
To spare the pain that you could rid me ofWe've grown so far apart
From used to be so intertwined
No more love you baby
In the middle of the nightIf you love me, well then show me
But if you don't then go on baby
With yourself and do what you wanna do with your life
Just leave me alone baby'Cause I'm cryin' for your lovin'
And I'm hopin' that this feelin' will die
But if it don't then girl, you've ruined my world
For the last timeI've got this damn thing called love
I've got it for ya but it just ain't enough
So I just watch my heart break
With every chance I take with you, with youI'm out of my mind for love
Givin' you all just ain't enough
What am I supposed to do
To get with you, baby, lady, hey?Whoa yeah, ooh yeah
Baby, yeah, ooh, baby
I don't know what to do lady
To keep [Incomprehensible]Oh, come home back, baby
Oh, don't you know? Don't you know?
Don't you know? Don't you know?If you love me then you'll show me

But if you don't then go on baby
With yourself and do what you wanna do with your life
Leave me aloneBut I'm cryin' for your lovin'
And I'm hopin' that this feelin' will subside
But if it don't then girl, you've ruined my world
For the last timeI've got this damn thing called love
And I've got it for ya but it just ain't enough
So I just watch my heart break
With every chance I take with you, with youI'm out of my mind for love
Givin' you all just ain't enough
What am I supposed to do
To get with you, baby, lady, hey?I've got this damn thing called love
And I've got it for ya but it just ain't enough
So I just watch my heart break
With every chance I take with you, with you
