

# Believe in Me

## :Wumpscut:

This is the entire history of a broken life

They told you were a lying child

Didn't they?

Did they lie?

Yes they did

Did they try?

Yes they did

You slugged me once

And I didn't slug you back

Did they lie?

Yes they did

Did they try?

Yes they did

So my friend

Leave all behind

Come with me

And you will find

So my friend

Leave all behind

Come with me

And you will find

Cause I will show you

How to die

And I am the devil
