Ready Set Roll

Chase Rice

Damn pretty girl you've gone and done it again
You've gone and turned your sexy up to 10
I've never seen a side ride seat looking so hot
Baby, you rock, you hit the spot like a fireball shot
You've got me all high, head spinning around and around
I'm down if you're down to burn down this town[Chorus:]
Ready set let's roll,
Ready set let's ride
Get your little fine ass on the step
Shimmy up inside,
Just slide girl by my side girl
Yeah, we can run this town
I can rock your world
We can roll 'em down fog 'em up
Cruise around get stuck pedal to the metal
'Till the sun comes up
I made a deal with the man on the moon
He's gonna put into some overtime, we've got all night
Ready set let's roll
Ready set let's ride
Ready set let's rollWhere the goodyears and good times meet
Girl we can rev it up right 'til we overheat
just forget about the time, get your lips on mine
Gotta kiss you, get to know your smile
On your mark, get set[Repeat Chorus]You've got my heart bum bumping
when I'm pulling up into your drive
Let's hit it ninety to nothin',
a couple of kids hitting' the nightReady set let's roll,
ready set let's ride
Get your fine ass up on the step
Shimmey up on inside
Slide girl by my side girl
Yeah, we can run this town
I can rock your world,
We can roll 'em down, fog 'em up, cruise around
get stuck, pedal to the metal, til the sun comes up
I Made a deal with the man in the moon
He's gonna put into some overtime, we've got all night
Ready set lets roll

Ready set lets ride
Get your little fine ass on the step
Shimmey up on inside
Yeah we can run this town
You know I'll rock your world
C'mon
Let's rock this town tonight
Readyâ€¦Setâ€¦Let's Rollâ€¦
