

# Sky (feat. Skelitor)

Ruben Urgal & Ruslan Tishenko

My love don't worry everything its gonna be ok (yeah)  
If you go with me my soul is never find the rest (oh baby)  
Will you forgive or will you live?  
Oh baby baby listen me just stay  
No please don't cry, my love's with you  
Hey girl forgive, I pray Oh my baby I need to make it  
I need to say goodbye  
Just forgive me I can't more live  
Hey baby please don't cry  
I need to go to sky My love forever, myself with you  
remember girl, I love you  
My love forever, myself with you  
remember baby, my love's with you  
I need to go to sky...(Skelitor's rap):Let's go  
Yo this time, I'ma give you this rhyme  
dedicated to the end of steady never big signs  
Gotta tours, Metaphors, now the stars are in line  
over seas, on the shore, at the bar, check your wine  
let me take my time to seize the moment  
sit back and analyze each component  
real life fantasize, need to clone it  
and everything to glamorize we be on it. My girl I'm gonna miss you  
Baby just don't close your eyes, I pray  
Will you forgive or will you will live?  
Oh baby baby listen me just stay  
No please dont cry, my love'a with you  
Hey girl forgive, I pray Oh my baby I need to make it  
I need to say goodbye  
Just forgive me I can't more live  
Hey baby please don't cry  
I need to go to sky
