

World Keeps Spinnin'

Cybele

Just because the earth is round, don't mean you've got the right

To treat it like it was a basketball.

Pass it to the left, shoot it from the right

Destroying it is gonna take it's toll...Oh no, I don't feel so good.

The world keeps spinning, here comes lunch. Just because the earth is round, don't mean you got the right

To kick it like it was a soccer ball.

Kick it to the ground, pass it to the sky

Destroying it is gonna take it's toll...Oh no, I don't feel so good.

The world keeps spinning, here comes lunch. All the dumping and spilling and burning and killing that's going
on all over the globe

How will the dumping and spilling and burning and killing affect us? Nobody knows.

Some wreck the state of the earth, some cry for the sky

It don't make a difference, we're the ones who are gonna die. Oh no, I don't feel so good.

The world keeps spinning...
