

# Neverend

## Superheist

And the wheels revolved and the world evolved around us  
Slipping through this chemistry, this apathy  
And I can see the real truth up above, it comes in waves  
Was in that note and all she wrote wasSave me from falling in this state I'm in  
Catch me, I swear it'll neverend  
Save me from falling in this state I'm in  
Catch me, I swear it'll neverendAnd then the tables turned and the fire still burns inside me  
Flaming through your legacy, your eulogy  
And I can see the real truth up above, it comes in waves  
Was in that note and all she wrote wasSave me from falling in this state I'm in  
Catch me, I swear it'll neverend  
Save me from falling in this state I'm in  
Catch me, I swear it'll neverendSave me from falling in this state I'm in  
(In this state I'm in)  
Catch me, I swear it'll neverend  
(I swear it'll neverend)Save me from falling in this state I'm in  
(I swear it'll neverend)  
Catch me, I swear it'll neverend
