

The One That Got Away

April Smith And The Great Picture Show

You called me up, you called me up too late

Call me the one that got away

You locked me down, your locks were made to break

I'd rather die a thousand deaths anyway

I can run, I can fly

You can kiss this thing goodbye

Call me out and cry about

The one that got away

I can stand, I can fight

Yeah, I'm breaking us tonight

Call me out and cry about

The one that got away

The bed you made

Was never meant for me

You never tried to take my breath away

You lost anyway

I can run, I can fly

You can kiss this thing goodbye

Call me out and cry about

The one that got away

I can stand, I can fight

Yeah, I'm breaking us tonight

Call me out and cry about

The one that got away

I was at my best, believed in you

That was my worst mistake

So obsessive, too possessive

You'll never change

I can run, I can fly

You can kiss this thing goodbye

Take these words I've never heard

There's nothing left to say

I can stand, I can fight

Yeah, I'm breaking us tonight

Call me out and cry about

The one that got away

I can run, I can fly

You can kiss this thing goodbye

Call me out and cry about

The one that got away
Call me out and cry about
The one that got away
