Willow

Sarah Slean

Willow tree by the sea
Where the guards lie
How I love to look at you
With all my aching lieWinter comes winter kills
Let it go by
Therell be better days
Willow
Dont cryWillow star shine afar in a dark sky
Youre the one Im wishing on
With all my weary mind
Tell the trees if you please
That it is alright
Therell be better days
Willow
Dont cryRiver bend
River sigh
River so wide
Wash away the worry
From my lonely heart tonight
