

Before You Close Your Eyes

Tindersticks

Just as your eyes are closing
There was something that I meant to say
Like falling from my heart
But I don't know how
Before you close your eyes
I don't know how

[Chorus]

I never cry for our love
I never cry
I never cry for our love
I never cry

There's no goodbye
These hands have always lived through mine
Now everything I touch I feel I don't know how
Before you close your eyes
I don't know how

[Chorus]

I'm so cynical
It's in my face and
It's just the bird I caught
Leaves its taste hanging round round round

[Chorus]

Just as your eyes are closing
There was something that I meant to say
Like falling from my heart
But I don't know how
Before you close your eyes
I don't know how

[Chorus]

Never cry, never cry
