

What You Never Know

[Sarah Brightman](#)

What you never know won't hurt you
What you never know won't lie
What you never know won't desert you
What you never know won't say goodbye
What you never know won't hurt you
What you never know won't lie
What you never know won't desert you
What you never know won't make you cry
What you never know
What you never, never, never, know
What you never know
What you never know won't hurt you
What you never know won't lie
What you never know won't desert you
What you never know unless you try
