

Climb

Noe Venable

Can you hear me?
I don't love anybody else
Keep you near me
Just like i try to keep myself nearAll the givers
And all the rivers in the world
Cannot quench it
The arid desert that you
Bring to everyone you knowI see you counting lovers in the street
I see you kissing anybody's feet
You are a kitten caught up in a tree
I see you climb awayTiny birdling
Scrambling for any scraggy tree
I am thinking
You make your nest where none can be
In the summer
The streets are waving in the heat
I am thinking about the water that you keep
In the corners of your mouthClimb awayI see you counting lovers in the street
I see you licking anybody's feet
You are a kitten caught up in a tree
You are unreachable by me
I see you climb away
