Let The Music Get Down In Your Soul

Marc Broussard

When your life looks too complicated
Gotta let the music get down in your soul
Forget all your frustrations
And let the music get down in your soul
Get on up, hey my brother
And let the music get down in your soul
Get on up, hey my sister
And let the music get down in your soul
Every day ain't gonna be sunny, no
Gotta let the music get down in your soul
Life ain't filled with puke and potty, no
Gotta let the music get down in your soul
Get on up, hey my brother
And let the music get down in your soul
Get on up, hey my sister
And let the music get down in your soul
Things ain't as bad as they may seem
But you can't find reality living in a dream
The strength you need, you had it all the time
You'll find the answer in the back of your mind
Get on up, hey my brother
And let the music get down in your soul
Get on up, hey my sister
Well well, let the music get down in your soul
Things ain't as bad as they may seem
But you can't find reality living in a dream
The strength you need, you had it all the time
You'll find the answer in the back of your mind
Get on up, hey my brother
And let the music get down in your soul
Get on up, hey my sister
And let the music get down in your soul
Get on up, hey my brother, hey, hey
And let the music get down in your soul
Get on up, hey my sister
And let the music get down in your soul
Yeah, forget all your frustration
Come on, come on, come on, come on, come move
Yeah move, come on

Get on up, yeah and move your feet
Come on girl and do what you need
Oh, hey my brother
Well well, down in your soul
And move your feet
Girl, let this music down in your soul
Oh move in your soul, yeah
