

# Real Thing

## L.A.O.S

Turn me over, turn me over again  
Turn me over, turn me over again  
Turn me over, turn me over again  
Hey boy, don't you know  
That you're the only one for me  
Oh baby, we contemplating 'bout the times we shared  
Baby never leave, oh yeah  
Even though it seems to me  
Your love for me is true  
I don't wanna ever be  
The one you make a fool  
Is this the real thing?  
The once a love, my whole being  
The one to give me everything  
Is this the real thing?  
Whatcha want?  
Baby, why don't you take this  
Message as a sign  
'Cause every time I see you boy  
You're blowing my mind  
Let me take you higher  
So we almost touch the sky  
Tell me I'm the only one  
That sparkles in your eyes  
Is this the real thing?

The once a love, my whole being  
The one to give me everything  
Is this the real thing?  
Is this the real thing?  
Is this the real thing?

(Sugababes, Sugababes, on the run, on the run, no doubt, no doubt)

Even though it seems to me  
Your love for me is true  
I don't wanna ever be  
The one you make a fool  
Let me take you higher  
So we almost touch the sky  
Tell me I'm the only one

That sparkles in your eyes  
Is this the real thing?  
The once a love, my whole being  
The one to give me everything  
Is this the real thing?  
Cannot believe, it's happening  
Will you be truly outstanding?  
Is this the real thing?  
Is this the real thing?  
(Sugababes, no doubt, Sugababes)  
Is this the real thing?  
(No doubt, Sugababes, break it down)
