

Fire

Austra

And who will have her?
Instead we harm her
And we make fire
And we are fire Without, she begs: I want her
Uphold and sell your stone to the sculpture You are not willing
You are not willing
You are not willing In the night, I beg to hide my falter
And alone, I beg to bare my offer, to her You are not willing
You are not willing
You are not willing You said:
I waged, a war
I waged, a war
I waged, a war
What foe, what for You are not willing
You are not willing You said:
I waged, a war
I waged, a war
I waged, a war
What foe, what for
I waged, a war
I waged, a war
I waged, a war
What foe, what for
