

# My Favorite Girl (feat. Redrama)

[Isac Elliot](#)

I called you up on the telephone  
To let you know girl you looking so amazing  
Would you be, could you be mineI know I acted a bit too cool today in school  
Can you please forgive me?  
Would you be, could you be mineGirl I'll take you to a movie  
Hold your hand if you approve it  
It's you who makes my heart go boomI will treat you like a princess  
Girl you're more than gorgeous  
Oh can't you see you'll always beMy lady, My baby,  
My favorite girl in the world  
I never let you go  
I never let you go, no no  
My lady, My baby,  
My favorite girl in the world  
I never let you go  
I never let you go, no noGirl you give me butterflies  
Your big brown eyes are making me feel shaky  
Would you be, could you be mineI send my love in a SMS  
You are the best, My special little goddess  
Would you be, could you be mineWe can go down to the mall  
You can fall back in my arms  
While you share a milkshake with meI will treat you like a princess  
Girl you're more than gorgeous  
Oh can't you see you'll always beMy lady, My baby,  
My favorite girl in the world  
I never let you go  
I never let you go, no no  
My lady, My baby,  
My favorite girl in the world  
I never let you go  
I never let you go, no noNo, no, no, no no  
I never let you go  
Let you go, let you go  
No, no, no, no no  
I never let you go

GirlI remember back in school 'n trying to act cool  
Thinking 'bout you all day, waiting in the hallway  
Then at the mall, you surrounded by your friends

How can i begin, with this heart pounding in my chest?  
Now I'm texting, sms'ing, waiting  
My cell, checking every second baby  
Don't tell me no, just tell me maybe  
You're my favorite girl, you're my special lady  
My lady, My baby,  
My favorite girl in the world  
I never let you go  
I never let you go, no no  
My lady, My baby,  
My favorite girl in the world  
I never let you go  
I never let you go, no no  
I never let you go  
Let you go, let you go  
No, no, no, no no  
I never let you go
