Lily Bee

I came home today to an empty house, didn't know what to say
Or who to say it to
Turned on the lights just to fill the rooms
Thinking company could never come too soon
I came home today feeling overworked and un, underpaid
My thoughts grow heavy, the night gets late
These hardwood floors can barely hold the weight
I came home today
But home, home, home sweet home was far away

(Bridge)
Me and this guitar
Can only get so far
Movie quotes and rhymes
Just to pass the time
Letters to a friend
All the news I send with all my heart

I came home today
And I packed my bags 'cause I didn't want to stay
I told myself it'd all be okay
'Cause home, home, home sweet home I'm on my way
