

# Buried Alive

[Axel Rudi Pell](#)

Early in the morning I heard the dirt falling  
Surrounded by darkness no way  
To get out of this strangest place  
Twisting and turning for freedom I'm yearning  
Trying to break free  
Gasping for air in the dark I'm lost in this misery A dream of reality  
I wish I could stay alive  
Destination insanity  
Need someone to help to survive Buried alive  
Screaming to survive  
Buried alive  
Locked in the casket of fright  
I'm buried alive Hearing from the outside  
The rain and the thunder  
Freezing cold in the dark  
Alone in the night wishing  
Someone's knocking at the coffin lid  
I'm sure I'm not dreaming  
My thoughts are still clear Or is it only my soul  
Trying to remember  
What had happened at all  
A dream of reality  
I wish I could stay alive  
Destination insanity  
Need someone to help to survive Buried alive  
Screaming to survive  
Buried alive  
Locked in the casket of fright  
I'm buried alive A dream of reality  
I wish I could stay alive  
Destination insanity  
Need someone to help to survive Buried alive  
Screaming to survive  
Buried alive  
Locked in the casket of fright  
I'm buried alive
