

# Invisible

## Big Time Rush

Do you ever wonder, when you listen to the thunder  
And your world just feels so small  
Put yourself on the line and time after time  
Keep feeling inside like they don't know you're alive  
Are you on their mind or just invisible  
But I won't let you fall  
I see you, through them all  
And I just wanna let you know  
Oh, when the lights go down in the city  
You'll be right there shining bright  
You're a star the sky's the limit  
And I'll be right by your side  
Oh, you know, you're not invisible to me  
Oh, you know, you're not gonna be invisible  
Do you ever think of, what you're standing at the brink of  
Feel like giving up, but you just can't walk away  
And night after night, always trying to decide  
Are you gonna speak out or get lost in the crowd  
Do you take a chance or stay invisible  
But I won't let you fall  
I see you, through them all  
And I just wanna let you know  
Oh, when the lights go down in the city  
  
You'll be right there shining bright  
You're a star the sky's the limit  
And I'll be right by your side  
Oh, you know, you're not invisible to me  
Oh, you know, you're not gonna be invisible  
Don't gotta look far, I'll be where you are  
I wish you could see what I see  
So don't ask why, just look inside  
Baby that's all you need  
And I don't understand why you won't (you won't)  
Take my hand and go  
Cause you're so beautiful  
And everytime that  
Oh, when the lights go down in the city  
You'll be right there shining bright

You're a star the sky's the limit  
And I'll be right by your side  
Oh, you know, you're not invisible to me  
Oh, you know, you're not gonna be invisible  
Oh, when the lights go down in the city  
You'll be right there shining bright  
You're a star and the sky's the limit  
And I'll be right by your side  
Oh, you know, you're not invisible to me  
Oh, you know, you're not gonna be invisible
