Your Love

Deon Kipping

You Cross paths with the cross, to save all the loss, because you loved us you loved us
From the grave to the sky every need you'll supply, because you loved us you loved us

Your love is why we are here
Your love none can compare with your love
You laid it all on the Cross for us your love
Oh... oh... oh...
Your love your love
Oh... oh... oh...
You Cross paths with the cross to save all the loss because you loved us...
