

When Love Has Come Along

[Adam Wheatley](#)

Oh my Love, where have You gone
I treated You like an alibi
I dressed You up with empty words
And good intentions I wore as my disguise I see my reflection in the crowd
Brothers, sisters, and enemies
Oh my Love, we need You now
You gave Your life, You came to show us how I will lay me down
Grace how sweet your sound
Hope will find its song
When love has come along Oh my Love, what have You done
You gave me grace to fill my eyes
You put Your heart within my reach
Yeah, You put Your heart right next to me I will lay me down
Grace how sweet your sound
Hope will find its song
When love has come along Love speaks louder than I can
Love speaker louder through my hands I will lay me down
Grace how sweet your sound
Hope will find its song
When love has come along
