Walk Away

Near Miss

Nothing seems to surprise me
You spent your life driving
Nothing seems to amuse me
She fell asleep crying todayCoz her life's lost and changed its ways
And through this time you lost a friend
All good things come to an endSo you trust in something in someone
You spent your life
Thinking and trying and finding
It's never rightYou want it all your own sad way
You pushed him down then left to say
Can you just help me one last time
She's got you now she'll feed you liesIt's all right it's okay
Life moves on to better days
It's all right it's okay
Life moves on just walk awaySo what can I do?
To get it all back nowIt's all right it's okay
Life moves on to better days
It's all right it's okay
Life moves on just walk away
