

# Rise

## Lecrae

(More) Your goodness, your mercy  
(More) I'm hungry, I'm thirsty  
(More) Your love and your grace  
(More) I just need a taste  
(More) Your peace and your passion  
(More) Your joy and compassion  
(More) You've got it, I need it  
(More) I've just gotta have it  
The throne of my heart, occupy and reign supreme  
Kill my lust and pride and all my other ugly things  
Wage your holy war inside me 'til you overcome  
Let your kingdom come, and let your will be done  
I was worthless I was dead, foul, nasty, dirty  
I had no eyes to see or ears to hear that you were worthy  
But your spirit hit me, it gave me new direction  
I see the deeper things, I call it depth perception  
Now your presence is my treasure, never-ending peace  
And they can't keep me from your love, 'cause it'll never cease  
So I pray you'll keep me, 'cause I can't keep myself  
Protect me from my sin, I know I'm bad for my health  
And I'm dying to know you, wake me up and let me read  
Drink your word so if they cut me, this is what I bleed  
Give me a double feature, give me a triple portion  
I'm coming back for seconds, thirds, fourths, more, more, more!  
(More) Your goodness, your mercy  
(More) I'm hungry, I'm thirsty  
(More) Your love and your grace  
(More) I just need a taste  
(More) Your peace and your passion  
(More) Your joy and compassion  
(More) You've got it, I need it  
(More) I've just gotta have it  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Lord give me more!  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Yeah I need more

(More) Lord give me more!  
If I don't know it, teach me please, though I'm undeserving  
Don't let me lose sight of my savior, 'cause my Savior's worthy (Jesus!)  
Apart from Him, I'm zip, zero, zilch, nada, nothing  
No point in acting like I'm somebody to prove somethin'  
Open my understanding, when I read the scriptures  
And still your Word inside a darkened wretch, unholy sinner  
Make me acquainted with your covenants and perfect plans  
Humble me by showing me the world is in your hands  
Lead me in the truth, wisdom, revelation  
Apply your blood to my dirty soul for salvation  
And help me believe, Lord lead me to faith  
Just teach me your ways, I'm in need of your grace (I need ya!)  
Purify my heart, fill me with your spirit

Occupy me with your presence, keep your servant near  
Give me faith to behold, write your name on my soul  
Make me whole for your glory and your name to be known!

(More) Your goodness, your mercy  
(More) I'm hungry, I'm thirsty  
(More) Your love and your grace  
(More) I just need a taste  
(More) Your peace and your passion  
(More) Your joy and compassion  
(More) You've got it, I need it  
(More) I've just gotta have it  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Lord give me more!  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Lord give me more!

A sinner, I understand my state  
I know my sins are numberless, iniquities are great  
But you are adequate [pronounced adakwate], I mean you adequate  
To cleanse me from my nonsense, from it I repent  
I'm never satisfied, more, more, I gotta grow  
Adding to my faith, virtue, knowledge, and self-control  
You're all I need to know, the only one I crave  
If I can't have you every day, then take me to my grave  
Help me to pray in faith, leaning up on your will  
Strengthen me with conviction, show me the sins that kill  
Nothing exceeds your power, nothing too great a task

Never too much to hope for, nothing too small to ask  
Wisdom is unsurpassed, begging to see your face  
Itching to see your glory, burning for your embrace  
All I know is I want it, people don't understand  
They never tasted anything great as the Great I AM  
I gotta have MORE!

(More) Your goodness, your mercy  
(More) I'm hungry, I'm thirsty  
(More) Your love and your grace  
(More) I just need a taste  
(More) Your peace and your passion  
(More) Your joy and compassion  
(More) You've got it, I need it  
(More) I've just gotta have it  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Lord give me more!  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Yeah I need more  
(More) Lord give me more!
