

# Coexist

## Corrosion of Conformity

By my looks, by me behavior  
Try to classify me, find a label  
You judge me as I judge you  
Won't live up to your stereotype  
Won't live up to your image You judge me as I judge you  
Preconceived picture of someone like me  
You think you know my type  
Preconceived picture of someone like you  
Why can't we just give it a chance? Hate at first sight, you're not alright  
I don't care about your laws  
You don't care about my cause
