

# Spotlight

## Hannah Montana

So may I have your attention ,look in my direction  
Here you'll see the sun never says no  
We don't have to worry, never in a hurry  
One by on the stars go to bed  
And I step into the spotlight againCan't help myself I gotta be where the lights are shinning down on me  
I wanna feel the sun  
So turn that walk into a run, gonna bring the party when I come  
Sing out if you wanna have some funAnd into the spotlight we will go, follow me 'cause baby life's a show  
And into the spotlight you will see it's the only place to beOh, music's like a magnet, the best thing on the planet  
It's pulling us together again  
So let's cause a commotion, sound waves on the ocean  
Wake the moon and grab your best friend  
Let's step into the spotlight againCan't help myself I gotta be where the lights are shinning down on me  
I wanna feel the sun  
So turn that walk into a run, gonna bring the party when I come  
Sing out if you wanna have some funAnd into the spotlight we will go, follow me 'cause baby life's a show  
And into the spotlight you will see it's the only place to beTurn it up if you're downhearted  
Let the music get us started  
Gotta let it go once in a whileTurn it up, there's nothing to it  
When it's done we'll just redo it  
Might as well have fun have fun in this lifeCan't help myself I gotta be where the lights are shinning down on  
me  
I wanna feel the sun  
So turn that walk into a run, gonna bring the party when I come  
Sing out if you wanna have some funCan't help myself I gotta be where the lights are shinning down on me  
I wanna feel the sun  
So turn that walk into a run, gonna bring the party when I come  
Sing out if you wanna have some funAnd into the spotlight we will go, follow me 'cause baby life's a show  
And into the spotlight you will see it's the only place to be  
Yeah, into the spotlight you will see it's the only place for me
